

Why do I need to contact the Travel Assistance Provider?

In a medical emergency, our Travel Assistance Provider will direct you to the nearest medical facility equipped to provide the treatment you need. They will contact our office to confirm your benefits and keep us updated on your medical situation. If required, they will also arrange transfer to another medical facility or evacuation to Saskatchewan, and assist in contacting your family or business partner.

If I have a medical emergency while travelling, do I have to pay my medical bills before I leave the hospital?

In all cases, contact the Travel Assistance Provider to arrange billing. The provider of service may bill directly for your emergency medical treatment. If you have chosen to pay for services, forms and instructions for filing a claim can be accessed on our website at sk.bluecross.ca

Why do I need travel insurance?

You are responsible for potential medical expenses not covered by Saskatchewan Health when you travel outside Saskatchewan, even to another province. Unless you purchase a travel plan, the resulting costs will come out of pocket if you suddenly become ill or have an accident. Don't leave home without travel coverage!

Who is eligible for coverage?

Anyone with a valid Saskatchewan Health Services card is eligible to apply. The application process includes eligibility questions for all applicants, and medical questions for applicants age 60 and over. Plans are subject to exclusions and limitations including a pre-existing condition clause. Travel coverage must be purchased prior to departure.

What benefits are included?

\$5 million CDN per covered person for emergency medical expenses while travelling outside Saskatchewan up to 214 days.

What steps should I take if I require medical attention while travelling?

Contact the Saskatchewan Blue Cross Travel Assistance Provider within 24 hours of your medical emergency. Assistance is available 24 hours a day, 365 days a year. Be prepared to provide your policy number, trip information and a brief description of the medical emergency.

This brochure is not intended as a contract or policy of insurance.
